

WE ARE REVOLUTIONIZING **THE POOL & SPA MARKET**

WITH FREE RESIDENTIAL CHEMICAL DELIVERY

If you'll give us the opportunity to provide your swimming pool needs for one season, not only will you save on chemicals, you'll escape high pressure "pitches" to purchase items you don't need. Ever feel like you're walking out of a pool store with \$100s worth of chemicals that you don't really need? *It's because you really are.*

Chemical delivery is absolutely FREE. (minimum order applies). Need your water tested? Save the trip - let our techs do it for you, poolside. Explaining pool problems at the store? No more - we'll examine it first hand.

Wonder why so many chemical systems lure you into believing they can make your pool maintenance free—but ALWAYS fail to deliver? It's because there is no such thing as a maintenance-free pool. There is, however a company dedicated to providing these services—affordably—and we won't sell you what you don't need.

How can we do this? Simple. Low overhead, bulk chemical purchasing (thanks to our commercial pools), trained, licensed, professional staff, (no young summer employees) and over 20 years in the swimming pool industry.
